Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

12th May, 1921.

Dear Sirs,

With reference to your First Entry Report No.6116 on the S.S. "AVANTI", I shall be glad if you will be good enough to state whether the breadth of the quadruple riveted keel straps is correct as reported, and if so to forward a sketch showing the arrangement of the rivets in the same. You should also state whether the side girder top and bottom angles and the thickness of the shelter deck plating in way of the openings are as approved, and whether the after peak bulkhead stiffeners are as approved and not as stated.

At the same time you should state the length of the bridge, if fitted, and whether the scantlings of the same are as approved.

I am, Dear Sirs,

Yours faithfully,

The Surveyors,

COPENHAGEN.

Secretary.
