Donegall Square East,

Belfast, 9th July 1943

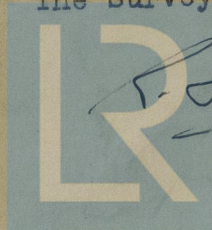

Dear Sir,

"NARICA"

With reference to the above vessel in the Classing letter of the 6th instant, we beg to advise you that the longitudinal stays in the steam space of the donkey boilers are $2\frac{3}{4}$ " diameter over the threads and at body of stay.

We are, Dear Sir,
Yours faithfully,
The Surveyors.
