

"CASSIAN SEA".

Mr. Orfanides of Marcou & Sons (Shipbrokers) Ltd., has telephoned that the ship is still at Argostoli (Greece) (see correspondence 8,59).

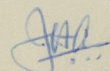

It is now proposed to sell the vessel for scrapping and to send her from Argostoli to RIJEKA for that purpose. It is also desired that she proceed under her own power.

Mr. Orfanides requests to be advised as to the Society's requirements at this date before leaving Greece.

15.12.59.

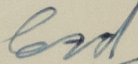

For issue of an Interim Certificate the ship should be examined & found or placed in satisfactory condition for the proposed voyage as an unclassified ship.

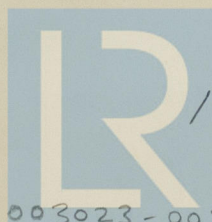

15.12.59.

As steam is necessary for essential services at least two boilers should be surveyed. Main & auxiliary machinery to be tried under working conditions including pumping arrangements & electrical equipment.

A short sea trial to be held to ensure that navigability of the vessel and entry of sea circulating water are not seriously impaired.

Conclude Society not
eq. to issue L.L. cert for
voyage.
