The Secretary,

Lloyd's Register of Shipping,

London.

Dear Sir,

With reference to your inquiry in the classing letter of the 1st April with regard to the First Entry Report on the M/S. "Formosa", Cpn. Rpt. No. 6090 I beg to state that the awning deck plating was increased in way of the openings and that the tonnage opening has been dispensed with, the thickness of the bottom plating of the Donkey Boiler Recess Bulkhead is .46, and the riveting of the butts of the tank top centre strake are as approved treble riveted when over .48 thick to double at Ends, and that the scantlings of the Shifting beams in each hatch are 16" as given on the freeboard report.

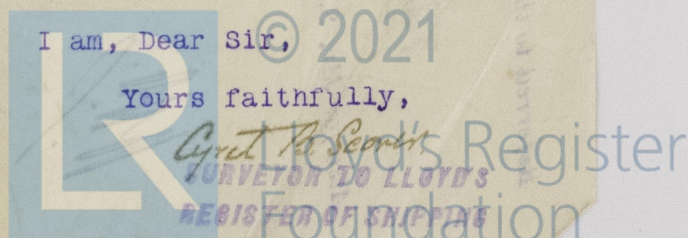

I regret that these omissions and errors have been made and request that you will be so kind to alter my report accordingly.

I am, Dear Sir,

Yours faithfully,

*Agnes M. Seaman*  
SURVEYOR TO LLOYD'S
