Hopper Dredger T.S. OG 5,37  
2,38  
S.S. Abg. No. 2-38

Fitted for Oil Fuel 11,29, F.P

-----

The Boiler Survey became due on  
in July last year.

Several enquiries have been made  
Society's Surveyor at Braila, and a reply  
been received from him, intimating that the Owners  
are not prepared to carry out the Boiler Survey for  
maintenance of class.

The Classing Committee had the case  
them on Friday, the 21st instant, when they decided  
to give instructions for the vessel's charter to  
be withdrawn from the Society's Register Book.  
Three Dots (. . .) inserted in lieu of proof  
4,39  
withdrawal of class at Owners' request.
