Lloyd's Register of Shipping.

Port Galveston, Texas

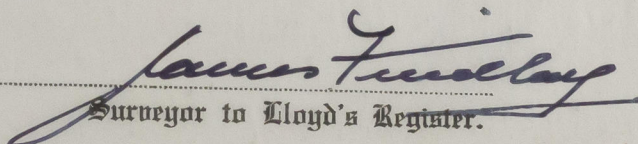

September 11, 1948

This is to Certify *that I have*

Surveyed the S/S "THEODOXUS" 10,672 tons gross of London on the 26th August and subsequent dates whilst afloat and in dry dock, for completion of survey for classification with this Society and the fitting of riveted crack arresters on the decks, sides and bottom of the vessel,

and that I have transmitted to the Committee of Lloyd's Register of Shipping, London, a Report, stating that all repairs recommended by me have been completed to my satisfaction, and that I have Recommended that she be classed in the Society's Register Book with the record of 100A1. Carrying petroleum in bulk, and drydocking 9,48 and the notation of S.S. Gal. 9,48, subject to 30 fathoms of cable to supply first opportunity as previously recommended

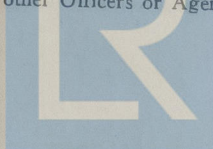

being fit to carry Petroleum in bulk.

Surveyor to Lloyd's Register.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—
While the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly performed, it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default or negligence of its Committees or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
