20th August, 1959.

Dear Sirs,

Classn.(S)

Motorship "UARDA"

PMW/SJL

A report has been received from the Surveyors at Swansea of a survey held last month, in which it is stated that fractures were found at the top flanges of the starboard main engine columns Nos.2, 3, 4, 8 and 9.

It is recommended, however, that the repairs which have now been effected to these items should be specially examined by the end of October, 1959, and the Committee have continued the class subject to this matter receiving attention by that time.

Yours faithfully,

C.C.MMO.

pro Clerk to the  
Classification Committee.

Messrs. Malmo Tankrederi,  
Fridhemsvagen 4,  
MALMO, Sweden.
