Lloyd's Register of Shipping.

Port GREENOCK.

5th September, 1930.

This is to Certify that

JOHN DAVEY

the undersigned Surveyor to this Society did at the request of Messrs. Scotts' S. B. & E. CO., Ltd., Greenock, survey during construction, 2 Auxiliary Engine Air Reservoirs, intended for their Engine No. 623, M. V. No. 551.

Thesscantlings are in accordance with the Rules for a working pressure of 250 lbs. per square inch.

The material has been tested by the Surveyors to this Society.

These Reservoirs were tested in the presence of the undersigned to a hydraulic pressure of 500 lbs. per square inch, and found tight at that pressure.

The working pressure should not exceed two hundred and fifty pounds.

Mark on Reservoirs.

No. 1968.
LLOYD'S TEST 500
per square inch.
W. P. 250 lbs.
J. D. 4/9/30.

J. Davey
Surveyor to Lloyd's Register of Shipping.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:—

“While the Committee use their best endeavours to ensure that the functions of the Society are properly executed, it is to be understood that neither the Committee nor the Society are under any circumstances whatever to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default, or negligence of the Surveyors, or other Officers or Agents of the Society.”
