## Refrigerating Installation.

It is submitted the Sydney Surveyors be informed, with reference to the Secretary's letter of the 30<sup>th</sup> ultimo, that when the capacity of the refrigerating machinery was examined it was concluded that the refrigerating installation made by Messrs J & C. Hall & Co and described in R.M.C Report No 1434 was fitted in S.S. "River Burnett."

It is now noted from the Sydney Surveyors letter dated 3<sup>rd</sup> July last which has just been received in this office, that the above mentioned refrigerating installation has now been fitted in S.S. "River Norman"

In this circumstance the Surveyors should be asked to be good enough to confirm that the refrigerating installation in the "River Burnett" is similar to that in the "River Norman."
