Principal Surveyor

NEW YORK

Dear Sir:

"TOMOGERUS"

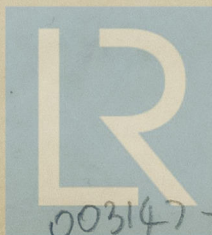

In reply to your letter of the 23rd instant regarding report No. 4981 on the above vessel, amended certificates altering the subject placed against the vessel have been mailed to the agents, copy enclosed.

I am in agreement that weatertight doors as originally fitted on vessel could be recommended for acceptance by the Committee.

The bottom shell strapping was 35.1 lbs. per foot in accordance with Standard Oil Company's Drawing No. 949 and Specification, and your letter to Mr. Arthur Stout of the 7th April, 1948, copy of which is enclosed.

Yours very truly,

/s/ JAMES FINDLAY  
Surveyor
