

4E

by Chief Engineer Surveyor.....

Received from Chief Engineer Surveyor..... 28 SEP 1962

NAME..... "ARONDA"..... REPORT..... SNG..... No. 15864.

Docking.

MBS due 6.62. Now held.

CSM advanced.

Overboard discharge valve of the Port Main Lubricating Oil Cooler Cooling Water found defective and a new 5" bore cast iron valve fitted. Auxiliary condenser outboard water box renewed due to severe wasting.

IT IS SUBMITTED that this vessel is eligible for the record MBS 8.62 now.

JW *X*

26.9.62.

NOTE.

It is concluded that the new 5" bore cast iron valve now fitted was of approved material but the Surveyor should confirm this.

Confirmed - See Singapore Letter 5/10/62
