VESSEL'S NAME

For - Albany

REPORT

Intd. No. 5870
Ex. No. 930-77-32

The remarks of the Chief Engineer Surveyor are desired on this case for the consideration of the Classing Committee.

"The endorsement to contain a succinct summary of any repairs that have been required and to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case, so that the Classing Committee may have all the salient points presented in the endorsement."—Extract from Sub-Committee's Report, 24/5/92.)

Type of Engine

Triple Expansion

If Boilers fitted with forced draught

Yes

Tail Shaft. If fitted with a continuous liner

*Yes*If fitted with an outside gland of }
approved type*No*

This vessel's machinery appears to have been built in accordance with the Rules and the approved plans, and it is submitted she is eligible to be classed *+ LMC 6.43.*

The Intd. Surveyors should be requested to confirm the particulars given for the rotary transformer generator cables, as from the figures given it would seem that there are two conductors per pole.
