Name:- S.S. "KINGDOC"

Report No. MONTREAL 14311

Nature of Survey:- Condition Survey.

Vessel examined in dry dock with view to carrying out Lake Special Survey. In view of repairs considered necessary the Owners decided to defer carrying out the work until the forthcoming winter lay-up when they might decide to break the vessel up. The vessel was considered efficient to continue trading until the forthcoming winter lay-up.

The following remains to complete the survey:- The vessel to be examined in drydock and salt with as found necessary at the forthcoming winter lay-up and the set-up bottom and tank top in way of Nos. 1 and 2 Double Bottom Tanks to be examined internally.

Recommendations:-

The Vessel appears eligible to remain as classed without fresh record of ^{with} survey subject as above.
