DIVER'S REPORT

I have thoroughly examined the underwater part of the s.s. "Umran" of which port of registry is Istanbul and Owned by Rıza ve Aslan Sadıkoğlu Ortakları Komandit Şirketi, while moored in front of Dolmabahçe.

I found that the bottom of the Ship is completely clean and in good situation, at the Port side, near hold No.2 below the Bilge there are slight scratches of paint, and the Tip of one blade of the Propeller is slightly bent.

I have prepared this report upon the Owners' request.
