28th May, 1956.

Dear Sir,

The recommendations contained in the reports of surveys carried out on the ships of Messrs. Chr. Salveson & Co's fleet stationed at South Georgia have been confirmed by the Committee, with the following exceptions:-

525 "SOUTHERN HARPER"  
529 "SOUTHERN HUNTER"

As recommended, except that a notation of Blr.S. 10.55 has also been assigned.

It is concluded that all requirements for the Special Survey of the machinery have been dealt with, including the main engine crossheads, and that the ship is entitled to a record of Blr.S.10.55, but your confirmation of this is desired.

545 "SOUTHERN GEM"

As recommended, except that the class of the ship has been continued subject to the bow anchor supplied between May, 1953 and February, 1955, being verified with the test certificate and to indented shell plating being examined at the next drydocking, and dealt with as necessary by the next Special Survey.

It is concluded that the auxiliary steam pipes, if over 3" were tested as required by the Rules.

546 "SOUTHERN STAR"

As recommended, except that a record of Drydocking 9.55 and notation of SS.S.6e.8.54 (Dr), have now been assigned.

I think it well to inform you that it is the normal practice at drilling surveys, to drill each strake of shell plating in the vicinity of the fore and after

(Continued)

bulkheads and at amidships,  
and to drill each strake of  
deck plating at two positions  
near amidships.

It is concluded that the 60  
fathoms of 1½" diameter chain  
cable now supplied have been  
verified with test certificates,  
but I shall be glad to receive  
your confirmation of this,  
together with the test particulars.

551 "BOUVET 1"

As recommended, except that a  
notation of Blr.S.2,56 has been  
assigned.

It is concluded that there is  
a stream anchor on board this ship,  
but I shall be glad to receive your  
confirmation of this.

516 "SOUTHERN RIDER" )  
524 "SOUTHERN RUNNER" )  
531 "SOUTHERN RANGER" )  
538 "SOUTHERN ROVER" )

It is concluded that the auxiliary  
steam pipes, if over 3" were  
tested as required by the Rules.

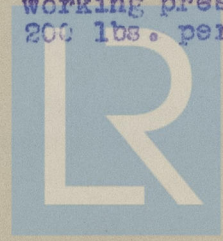

513 "SOUTHERN STRIFE"

It is concluded that there is a  
stream anchor on board and that  
it has been verified with the  
test certificate, but I shall be glad  
to receive your confirmation of  
this, together with the test  
particulars, weight, etc.,

17 "SOUTHERN BROOM"

It is concluded that the auxiliary  
steam pipes if over 3" were tested  
as required by the Rules.

I shall be glad to learn whether  
the boilers are in safe working  
condition for a pressure of 225 lbs.  
per square inch, or whether the  
working pressure should be reduced to  
200 lbs. per square inch.

19 "SOUTHERN LILY"

I shall be glad to learn whether the Boilers are in safe working condition for a pressure of 225 lbs. per square inch, or whether the working pressure should be reduced.

18 "SOUTHERN LAUREL"

It is concluded that the bottom in the boiler space (cement omitted) was examined at this time, but I shall be glad to have your confirmation of this.

It is concluded that the auxiliary steam pipes, if over 3" were tested as required by the Rules.

I shall be glad to learn whether the Boilers are in safe working condition for a pressure of 225 lbs. per square inch, or whether the working pressure should be reduced to 200 lbs. per square inch.

"SOUTHERN SAILOR"

I shall be glad to learn what special precautions and/or tests were employed in welding the boiler drums in way of the feed check valves. Please also let me know the extent of welding applied.

"SOUTHERN PAUL"

It is concluded that all Rule requirements for Modified Survey were carried out at this time in accordance with Paragraph C.602 of the Rules, but I shall be glad to receive your confirmation of this.

Yours faithfully,

Clerk to the  
Classification Committee.
