Reference

Dear Sir,

## S.S. "ADHERITY"

This vessel is at present in hand at Yarmouth in connection with a General Examination for postponement of Special Survey until July 1961, approved in your letter to the Owners dated 31st August 1960.

During examination of the vessel in dry dock, it became apparent that considerable repairs would be necessary at this time to maintain the vessel's present class, and we enclose herewith copy of a letter received from the Owners, requesting postponement of the Special Survey until the expiry date of the present Load Line Certificate, with the vessel operating on River & Estuary Service only.

It is considered that the present condition of the ship is such that the Owners request merits favourable consideration, for this restricted service. An annual Load Line Survey, together with dry docking, boiler survey and special examination of the rudder has been carried out, and it is expected that the present Continuous Survey cycle of machinery will be completed at this time.

Should the Owners proposal receive approval, we will be pleased to receive your instructions regarding the endorsement of the Load Line Certificate in respect of proposed restricted service.

Yours faithfully,  
The Surveyors.  
per:-

The Secretary.
