

CLASSIFICATION of EX.ADMIRALTY LSTs.

The amendment of the 1958 Rules with regard to the character of classification and class notations has resulted in an anomalous position as several of these ships have been classed *A- and several *100A-.

IT IS THEREFORE SUBMITTED that all this type of ship be classed *100A-, but in view of the light scantlings ~~an~~ indication should be given in the Register Book as follows:-

*100A- "..... Service limits....."
"Shell and weather decks to be
specially examined annually".

Weather ships of light scantlings should also have the note with regard to special annual examination.
