

P.P. "Kiruna" (Solaverkens)
No 355

It is submitted the Gothenburg Surveyors be informed that as the 135 fms. of 2.24 cable are of weight and test as required by the Rules and have been tested by the Surveyors for the Germanischer Lloyd, the same can be recommended for approval, but the notation C.P. cannot be made in the Register Book.

In regard to the test certificate ^{forwarded} for the spare anchor ~~forwarded~~ (which should be returned to the Surveyors) the Gothenburg Surveyors should endeavour to obtain particulars of the test, ^{state} and whether drop, bend and hammering tests have been carried out, when the case will receive further consideration.

The Gothenburg Surveyors should be requested to return the certificate with the information requested.

Lr. 8/4/21.
Ans'd 13th.
1 cert returned
2 retained.

W. C. J.
