NEWCASTLE-on-TYNE,

19th May, 1922.

MAURICE RITSON

Messrs. The North Eastern Marine Engineering Co.Ld. attend at their Works on the 24th of March, 6th, 7th and 28th of April, and the 17th of May, 1922 for the purpose of testing sixteen superheater headers S.H. 134 for Messrs. Richardson Westgarth & Co.Ld. of Middlesbrough - Contract M. 2553.

These headers were tested by hydraulic pressure to 645 lbs per square inch and found satisfactory. Each pair of headers is stamped - Lloyd's Test, M.E. 645 lbs, and numbered 2629, 2630, 2632, 2633, 2635, 2639, 2640, 2651 and 2652 respectively, with date for identification.

(Sgd) Maurice Ritson.

Surveyor to Lloyd's Register.

Fee £5:6:8.
