Dear Sirs,

M.S. "ELENI"

Before your Report No. 10054 receives the consideration of the Committee, I have to point out that the chain cables also require to be ranged and gauged for the Modified Special Survey and your comments on this are awaited.

Please let me know whether the present survey is for three months only to be followed by another complete Special Survey in May, 1963, or, if subject to certain repairs, the full Special Survey notation of 2,63 can then be granted. If the latter is the case a list of outstanding repairs for full Special Survey notation should be furnished.

It would appear that you have inadvertently recommended record of D.S. and notation of Mod. S.S. 2,62 instead of 2,63.

An early reply to this letter is desired.

Yours faithfully,

Deputy Clerk to the
Classification Committee

The Surveyors,
PIRAEUS
