Received from Chief Surveyors.....

E "ATHENAGODUS" ex. "HORSESHOE" REPORT Liv. No. 126099

or the CHIEF SHIP SURVEYOR and CHIEF ENGINEER SURVEYOR.

ch have to be submitted to the Classing Committee "the endorsement to contain a succinct summary of any repairs that have been  
nd to show the cause or causes of such repairs, and also to bring out clearly any exceptional features in connection with the case  
Classing Committee may have all the salient points presented in the endorsement."—(Extract from Sub-Committee's Report, 24/5/92.)

When due.....

This T2 type tanker was built in 1944  
o American Bureau requirements and Classification with this  
ociety is now desired.

First Entry report on the machinery has  
een examined and the details are similar to previous vessels  
f this type which have already been accepted.

The vessel has been examined in dry dock  
nd a General Examination of the machinery and electrical equip-  
nt carried out.

The Surveyor makes reference to:- "BS 3.47,  
ew York" on his Report 9, but there does not appear to be any  
ecord in this office of such a survey being held.

The safety valves of both boilers have been  
adjusted now.

It is noted that the spare gear is not up  
o Rule requirements and that the electrical fittings in the  
entre castle 'tween deck space are not of flame proof type.

IT IS SUBMITTED that this vessel's machinery  
eligible for the notation "Examined 10.47" (Class Contemplated),  
bject to the spare gear being brought up to the Rule requirements  
nd the electrical fittings of the centre castle 'tween deck space  
ing replaced by fittings of flame proof type.

The Liverpool Surveyor should be asked to  
ate what evidence he has regarding the Boiler Survey having been  
arried out in 3.47 in New York and by whom.

The Owners should be advised that it would  
appear the screw shaft has not been drawn in for examination since  
he vessel was built in 1944, and this survey is therefore due this  
ear. They should therefore be asked what arrangements can be made  
or this to be carried out.

BS 3.47 per Supp to  
Am. Record.  
3/11/47.
