Particulars of Classification (which must be inserted precisely as in Register Book and Supplement)

Surveys must be reported in the terms of the Rules. The nature and extent of Examinations and Repairs (if any) must be stated in detail, the parts examined and their condition being clearly indicated. For Annual, Special or other Condition Surveys the Summary of Examination and Condition on the back of the Report is to be carefully completed and amplified if necessary in the body of the Report. Outstanding items to complete the Survey should be summarised at the end of the Report. The reasons for Repairs must be stated. Repairs on account of Damage (the alleged cause of which must be stated) should be separated from Repairs due to other causes, and, besides being detailed in the body of the Report, should be summarised in the form below. When, at a Special Survey, the Shell and Deck Plating is drilled the results must be reported on Report 8(Dr). Whenever Anchors or Chain Tables are replaced or retested the necessary particulars are to be given on Report 8(Eq) which is to be attached to this Report.

## EXAMINATION AND REPAIRS AS PER RULE FOR DOCKING.

REPAIRS WEAR AND TEAR  
RUDDER Small fracture side plating veed and welded.  
SHELL H2 p.s. fracture veed out and welded doubling plate fitted outside

CONDITIONS OF CLASS. Indented shell plates G8, H8 in way No.4 tank p.s. were examined and found to remain efficient. It is recommended they be examined and dealt with as necessary at next drydocking.

Slight deformation of keel plates especially in way of Nos. 4 & 8 cargo tanks. The deformations were examined and considered to remain efficient but is recommended the subject be continued as at present:-

Set in shell plating, etc., p.s. in way No.2 cargo tank were specially examined and found to remain efficient meantime.

Continuation of text with mirrored bleed-through from reverse side.

SUMMARY OF DAMAGE REPAIRS	Shell Plates	Frames	R. Frames	Floors and Bracket Floors	Inner Bottom Plates	Deck Plates	Beams	Other Items
Renewed								
Removed and Faired or Repaired								
Faired or Repaired in place								

Has a Survey also been held on machinery of the Ship? Yes Now  
Is Classification Certificate required? If so, to be sent to No  
Has Interim Certificate been issued? Yes

GENERAL OBSERVATIONS, OPINION AND RECOMMENDATION AS TO CLASS  
State clearly what alteration, if any, is suggested to be made in the existing Classification or Survey or other records of the Ship in the Register Book consequent upon this survey; for example:- "to remain as Classed in the Register Book without fresh record of Docking"; "to remain as Classed and to have record of drydocking 1.55, and the notation of S.S. . . . 1.55".

This tanker is eligible in my opinion to remain as classed with record of Docking 5.59 subject to set in shell plating, etc., p.s. in way of No.2 cargo tank also to indented shell plates G.8, H8, in way No.4 tank p.s. being specially examined and dealt with as necessary at next Drydocking also to slight deformation of keel plates especially in way Nos. 4 & 8 cargo tanks being kept under observation all as previously recommended.
