1, Akunoura-cho, Nagasaki, Japan.

RECEIVED

5 FEB 1962

1st February, 1962

Dear Sir,

"CONSTANCE"

We acknowledge receipt of your letter of the 16th January reference to our report No.1138 and to the outstanding machinery items for completion of the present continuous survey cycle.

With reference to our recommendation of C.S. 11,61 being now assigned to this vessel we have to say, that from records onboard, which were examined by Owner's Superintendent, Chief Engineer and the undersigned, the items examined by us and contained in our report No.1138 were outstanding for completion of the survey and it was the Owners desire that the survey be completed at this time.

Accordingly we have communicated with the vessel requesting the Master to forward to this office particulars contained in the Chief Engineers Survey Report which has the signatures of Surveyors and date and place of survey, also interim certificates onboard.

In accordance with your instructions we have issued an amended interim certificate and a copy is now enclosed for your information.

Yours faithfully,

W. Alcock
per Surveyors.

The Secretary,
LONDON.
