I have surveyed the above ship in accordance with the Rules for General Examination with a view to extending her Class one month beyond the expiry of the year of grace until the end of November, 1962.

The items now surveyed are detailed on this report. All were found or placed in good condition unless otherwise stated. All as far as accessible externally satisfactory. Forward hold internally satisfactory. Windlass and steering gear examined externally and working. Rudder as far as accessible in good condition. Anchors and cables as far as accessible in good order.

Vessel discharging cargo no tanks examined internally, not gas free.

As far as examined the vessel is in my estimation in sound condition and, subject to approval, fit for a one month's extension.

I recommend that this ship remain as classed ~~with~~ without fresh record of dry docking subject to indicated bottom shell plating A & B strakes port and starboard to be specially examined and dealt with as necessary at the next Annual Dry Docking. Set inside shell plating port and starboard and G strake starboard to be examined and dealt with as necessary at the next Special Survey."

These conditions of class are recommended to be retained, imposed, amended or deleted, particulars to be stated above and on the interim certificate.)
