5237 - As recommended.

"ROSA PELLEGRINO" - With reference to your letter of the 30th July last, I think it well to point out that the registered length of the ship stated to be 76.5 metres (i.e. 251 ft) does not compare with the overall length stated in the report (247.49 ft), and I shall be glad to receive your comments on this.
