71, Fenchurch Street, E.C.3.

ENCLOSURES.

27th January, 1939.

Dear Sir,

M.V. "PAUA".

E.

I duly received your letter of the 20th instant, with accompanying communications from Mr. Fitzgerald and Messrs. Harland & Wolff, Ltd., from which I note it is proposed to fit supercharging arrangements to the engines of the above vessel and that the mean indicated pressure will then be increased to a maximum of 9 Kgs. per sq. cm.

In reply I have to inform you that, with these alterations, the existing sizes of crank, flywheel and straight shafting are considered satisfactory.

One copy of each plan forwarded is returned herewith.

I am, Dear Sir,

Yours faithfully,

The Secretary,

GLASGOW.

Secretary.
