RECEIVED

23 NOV 1962

20th November, 1962.

Dear Sir,

Steamer "KUALA TRENGGANU"

We thank you for your letter of 15th November confirming your cablegram of the same date in reply to ours of 14th November regarding the postponement of the Special Survey until March, 1963 as requested by the Owners.

We have to-day received copies of Shimonoseki reports on a General Examination carried out at Yawata on 13th and 15th October, 1962, the originals of which will no doubt have now reached you. From these reports it is noted that the Surveyor recommends postponement of the Special Survey until December, 1962, this being in accordance with the Owners request at the time of survey.

The Owners subsequent request to further defer the Special Survey also the overdue Boiler Survey was submitted to you per our cable mentioned above. Following receipt of your reply it was obvious that the Shimonoseki reports had not in fact reached you on 15th November.

We were able to contact the Owners representative yesterday to discuss the position and he was advised that a further General Examination should be made in December, 1962, also the Boiler Survey advanced or completed before March, 1963. He will contact the Owners and advise us.

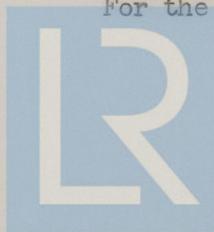

We trust you concur in the above, particularly in view of our Report No. 9283 and the outstanding Conditions of Class.

Yours faithfully,

P. Bowman

For the Surveyors.

The Secretary,
LONDON.
