Dear Sirs,

Steamer "KUALA TRENGGANU"

The case of the above-named ship has been under consideration here today in connection with your cablegram of yesterday's date, and in confirmation of my reply as per copy herewith, I would inform you that the Committee will not object to the Special Survey being postponed until March 1963 as desired by the Owners; but for this deferment the Committee must expect at least a General Examination of hull and machinery to be held afloat now. The question of drydocking is left entirely to your discretion, bearing in mind that the ship was last seen in drydock by you in July 1961.

As regards the Boiler Survey, this inspection as you know fell due last July and it is considered the Owners should be encouraged to advance or complete this as soon as possible before the end of March next.

Yours faithfully,

Clerk to the
Classification Committee.

The Surveyors,
KOBE.
