

"EXCELLENT".

Bou.728.

Before this case receives consideration it is submitted the Surveyor be requested to state where the steel for the new thrust shaft was made, ~~and~~ he should be informed that in any case where it is proposed to fit important forgings which have not been constructed under the Society's inspection, he should communicate the proposal to this Office before taking further steps in the matter.

blsq Dr. Bon. 18/11/38.
