

sfs. "Jessie Summerfield."

This vessel's machinery was constructed under Special Survey & Satisfactorily reported upon except the circulating pump casing in which a diaphragm between the suction and delivery sides of the pump was omitted. Temporary alteration has been made with cement and new type of door, making the diaphragm unnecessary, will be fitted as arranged between the Builders & the Owners.

It is submitted that  
this vessel is eligible for  
THE RECORD. + LMC 12. 19.

Subject to the alteration to the circulating pump being made before the end of March 1920.
