Telex No.: 24305

23rd February 1962

Dear Sirs,

Motorship "STANVAC NAIROBI"

Reverting to my letter of the 2nd instant, the Committee have today had before them the Report of Survey held at Hong Kong in October/December last.

From a consideration of the drillings which were then effected, it is learned that the deck has deteriorated approximately 23% and the bottom shell 14%. The Committee therefore feel they must strongly recommend that the Special Survey which was due last September should be carried out at the earliest possible opportunity and I shall therefore be obliged if you will kindly let me know as soon as practicable what arrangements you are able to make for early compliance with this recommendation.

The Continuous Survey cycle in regard to the machinery was completed as well as the Auxiliary Boiler Survey and the appropriate notations for these inspections with the date of 12.61 will be entered in the supplement to the Register Book.

Yours faithfully,

Clerk to the
Classification Committee.
