Dear Sirs,

Motorship "ETTRICKBANK"

Replying to your letter of the 12th December regarding the Special Survey of this ship and in confirmation of our telephone conversation this afternoon, I have to acquaint you that this case has been considered by the Committee today and provided the ship is generally examined at Hong Kong in conjunction with a Load Line Renewal Survey, they would have no objection to her proceeding from that port, in ballast, to Kaohsiung as a classed ship, and in addition, the Surveyor will be authorised to issue the necessary short term Load Line certificate. This examination will be confined to the hull, it being considered that no further examination of the machinery is necessary unless desired by you.

It is observed that the contract has not yet been concluded, and in these circumstances, the Society's Surveyors in Hong Kong are not being advised at this time of the decision. No doubt you will contact this office immediately should you require instructions to be sent to the Hong Kong Surveyors.

Yours faithfully,

c.c. Freeboard

Deputy Clerk to the  
Classification Committee.
