

COPY OF AIR LETTER

16th February, 1949.

Reference H & F

Dear Sirs;

M.V. "ETTRICKBANK"

I have to inform you that the Special Survey has been partly held on the hull of this vessel, the following being the outstanding items:-

Examination of No.4 hold, all 'tween decks,  
machinery spaces, feedwater D.B. tank (s.s.)  
and anchors, chain locker, steering gear,  
general equipment and pumps (if any).  
Testing of deep tank.

The current cycle of Continuous Survey of the oil engines has been completed.

The Owners state it is proposed to have the Special Survey advanced or completed on the vessel's arrival at your port in about a week's time, and that they understand from the Master that some of the items referred to above have already been dealt with, Certificates being in his possession to this effect. I shall be glad if you will give the case the necessary attention.

As the vessel's Load Line Certificate will expire on the 11th April next, the Owners are anxious to ensure that this will be extended for six months after satisfactory survey of the vessel by you, and I shall therefore be glad if you will arrange for this to be done.

Yours faithfully,

Clerk to the  
Classification Committee.

The Surveyors,  
DURBAN.
