LLOYD'S REGISTER OF SHIPPING

Port Liverpool

28th January, 1963.

This is to Certify that I have surveyed part of the machinery
of the "CORINTHIAN", 3198 Gross tons of Liverpool
for Commencement of M.B.S.,

and that all my recommendations have been carried out to my satisfaction. I
am reporting accordingly and recommending to the Committee of Lloyd's Register
of Shipping that the machinery classification should be retained and the following
survey records assigned M.B.S. 1,63 on completion.

Parts now examined:—

Forward and Starboard aft main boilers.

Note :- To complete the M.B.S. the Port Aft Boiler remains to be
examined in its entirety, the safety valves of the Port Aft and
Starboard Aft boilers adjusted under steam and the oil burning
system and remote controls examined and tried.

G.A. Stewart

Surveyor to Lloyd's Register of Shipping
