Port Oslo

9th August 1929

This is to Certify that

Per Björn-Röli

the undersigned Surveyor to this Society did at the request of Kaldnæs mek. Verksted, A/S, Tønsberg examine during construction 8 press boilers ordered for the s/s "MAUDIE".

The scantlings are in accordance with approved plans for a working pressure of 70 lbs. per sq. inch. The steel materials have been tested by the Society's Surveyors.

The boilers were subsequently tested by hydraulic pressure to 140 lbs. per sq. inch and found perfectly tight and sound at that pressure.

The workmanship throughout is good.

The boilers were marked:-
