Re: S.S. "TRANSMARS"

QUESTION

ANSWER

With reference to New York Report No. 57449, I shall be glad to learn how this stands as regards the condition of class.

The Steam Pipe Survey will become due at the end of next month.

Date:—

March 12, 1959

The Curacao Surveyor advises that he was not afforded an opportunity at Aruba of examining the heavy weather damage repairs recommended in New York Rpt. No. 57499. I have been in touch with the Owners who will endeavor to set up an opportunity when the vessel returns to the USA next month to deal with this matter and to carry out the Steam Pipe Survey.
