STIENTJE MENSINGA.—Valentia Radio, Dec. 4.—Following received from Black Rock Lighthouse:

At 7 27 p.m., G.M.T.: Master of motor vessel MARIA SCHULTE (Hull for Sligo) reports boat missing with four of Dutch crew of motor vessel Stientje Mensinga and five of his own crew. Three other men overboard. Trawler Boston Britannia is one and a half hours away

and proceeding to search. Aranmore lifeboat also searching. Aircraft dropping flares at position.

At 9 50 p.m., G.M.T.: Master of MARIA SCHULTE now confirms only nine men missing, not 12 as previously reported. (See issue of Dec. 5.)

London, Dec. 4.

—Londonderry Naval Base stated that five German sailors from the motor vessel MARIA SCHULTE and four members of the crew of the motor vessel Stientje Mensinga were reported missing after a boat returning from the Dutch to the German vessel overturned and was swamped. The accident to the boat happened after the helicopter had broken off its services and the German vessel had got a line across to the Dutch vessel. A report received by the Admiralty in London said that the boat was thought to have been taken in tow by the German vessel, presumably because the high seas made it impracticable to hoist it on board. It was not clear whether the boat capsized or whether the tow-rope parted, the Admiralty said, but the boat was missing.

Valentia Radio,

Dec. 5. — Following received from Aranmore lifeboat at 12 16 a.m., G.M.T.: Calling off search for to-night and heading for Broadhaven to anchor.

Following received from Galway Bay lifeboat at 12 30 a.m., G.M.T.: Returning to station.

Following received from Operations Officer, Londonderry, at 1 4 a.m., G.M.T.: All aircraft have been withdrawn from search area until 8 a.m.

Following received from Eagle Island Lighthouse:

At 1 28 a.m., G.M.T.: Motor vessel MARIA SCHULTE, position six miles north-west of Eagle Island, making three knots in heavy weather, will remain in vicinity until morning to continue search.

At 8 40 a.m., G.M.T.: Following received from MARIA SCHULTE at 8 15 a.m., G.M.T.: Owing to strong NNW. wind and heavy seas the MARIA SCHULTE will not be able to work along the coast so she is proceeding to Sligo. Aircraft search at 8 15 a.m.

Land's End Radio,

Dec. 5. — Following received from Valentia Radio at 9 25 a.m., G.M.T.: XXX (urgency signal), a total of nine men missing from Dutch motor vessel Stientje Mensinga and German motor vessel MARIA SCHULTE in vicinity of position two miles north-east of Eagle Island. At 8 15 a.m., aircraft searching area.

Land's End

Radio, Dec. 5.—Motor vessel Stientje Mensinga: Following received from Valentia Radio at 12 36 p.m., G.M.T.: Following received from Eagle Island Lighthouse at 12 18 p.m., G.M.T.: Six bodies and German lifeboat picked up. Three men still missing.

London, Dec. 5.

—Dutch motor vessel Stientje Mensinga, which struck a submerged rock off Eagle Island, has sunk. Motor vessel MARIA SCHULTE, which had gone to her aid, was later reported to be on her way to Sligo. The bodies of four seamen were found to-day after a Royal Air Force Shackleton, searching through snow and fierce winds, had sighted an upturned boat. Three of the bodies recovered are believed to be from the MARIA SCHULTE. The search has now been abandoned.

Westport, Dec. 5. —

Dutch motor vessel Stientje Mensinga lost off Eagle Island, Co. Mayo; master and three men missing. Also missing five men from German motor vessel MARIA SCHULTE in rescue attempt; three bodies recovered.

STIENTJE MENSINGA.—Westport, Dec. 5.—According to a statement made by the chief engineer of motor vessel Stientje Mensinga, the vessel sank while seeking shelter in Broad Haven Bay and is lying midway between Eagle Island and Erris Head in 29 fathoms of water. (See issue of Dec. 6.)

STIENTJE MENSINGA. — Ballina, Dec. 6. — According to a deposition made by the chief engineer, motor vessel Stientje Mensinga was proceeding at half speed on Dec. 4 in a gale-force north-east wind when she struck rocks about two miles north-east of Eagle Island and was holed near the bow and later near the stern, causing the engine-room to be flooded and the diesel engines and pumps to be put out of action. The rudder and starboard propeller and shaft were badly damaged. The vessel then drifted and anchored about one mile north-east of where she had struck. (See issues of Dec. 5 and 9.)
