R

Dear Sirs,

"ESSO MANCHESTER"

I thank you for your letter of the 9th August and note that the ship is now laid up at Belfast.

I take this opportunity to remind you that the Main Boiler Survey became due at the end of April last and that her last recorded drydocking date is April 1960. Her class is at present subject to shell plate in 2nd strake below sheer in way of shell connection of transverse bulkhead between Nos.4 & 5 cargo tanks (s.s.) being specially examined and dealt with as necessary next drydocking.

The vessel also requires to be examined in drydock after grounding, reported by the Southampton Surveyors in February last.

Yours faithfully,

Clerk to the
Classification Committee.
