Dear Sir,

Motorship "OMALA"

We confirm herewith the receipt of your letter dated 6th February last concerning the above ship, contents of which have been noted.

The matter of deck drillings has been discussed with Messrs. Shell Tankers, on which occasion it appeared that during the relevant survey the wrong midship section and deck plan have been used.

They at the moment, however, are not further interested in the drillings.

It was stated that it is not their intention to pass another Special Survey, but to take the ship out of service about August next, when the vessel most probably will be sold.

We will keep you informed concerning any further development of this case.

Yours faithfully,

The Secretary,  
LONDON.
