5th May, 1960.

n. (H) Dear Sir,

S.S. "LAHEJ"

With reference to the Special Survey, which became due at the end of December last, and which was commenced at Aden in November, I shall be glad to learn what arrangements are proposed to be made for this inspection to be completed.

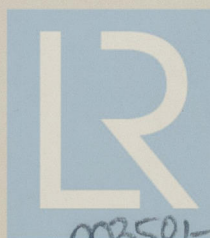

The long overdue Steampipe Survey was commenced on the above occasion and to complete this inspection all copper steampipes over 3" diameter, with the exception of the first length (port and starboard) from manoeuvring to bulkhead stop valves require to be annealed, examined internally and tested, and your intentions regarding this matter will be appreciated.

I take this opportunity to remind you that the Boiler Survey will become due at the end of June.

Yours faithfully,

Clerk to the
Classification Committee.

The Marine Superintendent,
Messrs. Peninsular & Oriental Steam Navigation Co.,
122, Leadenhall Street,
LONDON, E.C.3.
