

URGENT.

Steamer "ROY"

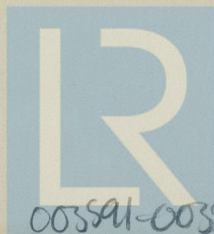

Mr. Van der Weel telephoned from Rotterdam this morning and stated that this ship is still in the hands of Shipbreakers, but it appears unlikely that she will be broken up at that port.

The present Owners are now contemplating sending the ship with cargo to Formosa, where she will be broken up, and they desire to know our minimum requirements for certificates to cover the voyage as a Classed ship.

Mr. Van der Weel is aware that the last Special Survey was held in January, 1956, and he suggests that if the desired certificate is to be issued a comprehensive General Examination should be carried out by the Rotterdam Surveyors before the ship leaves.
