28 APR 1950

Lloyd's Register of Shipping.

Port

ALEXANDRIA.

21st. APRIL, 1950.

This is to Certify that I have

Surveyed the Boiler and ^{Port} Machinery of the Steel Screw Steamer

"PAN OCEAN" 5140 gross registered tons of Panama whilst in Drydock and afloat at Alexandria.

and that I have transmitted to the Committee of Lloyd's

Register of Shipping, London, a Report stating that all

recommendations made by me in connection therewith have

been carried out to my satisfaction, and that I have

Recommended that the record of B.S. 4,50 & T.S. C.L. 3,50

and fresh notation of "Fitted for Oil Fuel 4,50 F.P. above 150° F"

be made in the Register Book in the case of this vessel. When extended spindles have been fitted to deep tank suction of Oil Fuel Unit, and steam smothering stop valves. Subject to special examination of:- port and starboard furnaces, port boiler, port furnace in centre boiler and port furnace in starboard boiler, at the next boiler survey.

C. W. M. P. L. T. M.

Engineer Surveyor to Lloyd's Register.

This Certificate is issued upon the terms of the Rules and Regulations of the Society, which provide that:-

While the Committees of the Society use their best endeavours to ensure that the functions of the Society are properly performed, it is to be understood that neither the Society nor any Member of any of its Committees is under any circumstances to be held responsible for any inaccuracy in any report or certificate issued by the Society or its Surveyors, or in any entry in the Register Book or other publication of the Society, or for any error of judgment, default or negligence of any of its Committees or any Member thereof, or the Surveyors, or other Officers or Agents of the Society."
