

COPY.

Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

4th February, 1935.

Dear Sirs,

E. With reference to your report No. 11456 on the  
m.v. "ACAVUS" (Messrs. Workman Clark's Yard No. 536) I shall  
be glad if you will furnish me with the necessary  
particulars of the bilge pumps.

For your information I may say that the Newcastle  
Report on this case states the bilge pumps, worked from the  
main engines, as being one bilge and one sanitary (rotary),  
and the pumps connected to the main bilge line as being two 35  
ton rotary, driven by the main engines.

I shall be glad if you will confirm this and  
also forward particulars of the independent bilge pumps.

I am, Dear Sirs,

Yours faithfully,

Secretary.

The Surveyors,

BELFAST.
