90187. "CHRISTIAN HOLM". As recommended. I have to request that you will be good enough to state the reasons for fitting the vertical stiffening angles on certain bulkhead webs and on the shell transverses in practically all cargo tanks, also at whose instance these stiffeners were fitted.

At the same time I have to request that you will forward a sketch of the webs and transverses, showing the position and extent of these stiffeners; also their relation to the lightening holes.
