6th October, 1948.

ENCLOSURE

Dear Sirs,

s/s "AVISMERE"

I duly received your letter of the 30th ultimo enclosing a sketch showing extent of bottom shell corrugations and proposed stiffening in the above ship, and have to state that the arrangements as shown and amended in green will be approved, provided they be carried out to your satisfaction.

It is considered essential that the two lines of intercostal angle stiffeners on 'A' strake, port and starboard, should extend to frame 59, and the two lines of stiffeners on 'B' strake, port and starboard, should extend to frame 66 to cover the corrugations shown on the sketch, which is returned herewith.

Yours faithfully,

The Surveyors,
SWANSEA.
