

RECEIVED

Powell Duffryn House,  
Tetrichaux Buildings, Adelaide Street,

"AVISMERE" ex "OCEAN VISION"

Built in 1942 by Messrs. Todd - California S.B. Corporation

Rule Dimensions: 416' x 56.9' x 37.33'

The Swansea Surveyors submit a plan of an additional upper deck girder proposed to be fitted between the hatchway sides and the ship sides extending from Frames Nos. 31 to 65 and 100 to 142. They state that the girder extends beyond the half length amidships in order to take the full extent of the waviness of the deck plating.

This plan shows the additional girder in line with the existing girder, which is fitted between Frames Nos. 65 and 100.

It is noted the class of this vessel is subject to "an additional longitudinal deck girder (p & s) being fitted extending between the forward and after deckhouses (wavy deck plating)" etc.

From the plan it would appear that this <sup>portion of the girder</sup> has already been fitted, and is the girder referred to above.

It is submitted the Surveyors be informed that the scantlings and arrangements will be approved, provided they be carried out to the Surveyors' satisfaction.

Ltr. 17-9-48

Ansd. 23-9-48

1 plan returned.

Reports Department.
