Dear Mr. Coote,

I am enclosing and addressing to you privately, two Reports on "Queen of Bermuda" from Genoa 12529 and Glasgow 52863 which came to light to-day, and have evidently been retained in this office inadvertently. I assume that they should have been forwarded with Barrow F.E. Report No.2469, February, 1933.

The "Strathaird's" electrical Report is now at Vickers-Armstrongs for checking and signature, and has been delayed a little in order to get the necessary particulars of Mr. Badger's visits from Liverpool, and also the Builders have had to prepare two books of diagrams and particulars. It will, however, be sent off immediately Messrs. Vickers return it duly signed.

With kind regards,

Yours sincerely,

Macmillan
