

s.s. "STRATHAIRD" & "STRATHNAVER"

These vessels were built by Messrs. ~~Armstrong-~~
Vickers at Barrow.

The propelling machinery consists of steam turbines connected to electric motors. The Makers of the steam turbines and the electric motors are The British Thomson-Houston Co.Ld., Rugby, and the boilers, shafting, condensers etc. were made by Messrs. Vickers-Armstrong Ld.

Messrs. Vickers-Armstrong have now returned the machinery certificate to the Barrow Surveyors and have pointed out that their name does not appear on the certificate although they are the main contractors.

IT IS SUBMITTED that the names of both Firms be inserted in the certificates and also in the Register Book.

1. 2. 32.

Engine Makers' names-

Vickers Armstrong Ld.
British Thomson Houston Co.Ld.

noted for reprint.
