## Lloyd's Register of Shipping,

71, Fenchurch Street, E.C. 3.

9th October, 1936.

Dear Sirs,

With reference to the motorship "BRITISH ENDURANCE", recently completed by Messrs. Swan, Hunter & Wigham Richardson, (Yard No.1500) with a view to classification with this Society, it is understood that this vessel sailed from your port today for Port Said, and the Owners state they are anxious to have the Classification Certificates so that they may be delivered at Port Said before the vessel's arrival.

I have therefore to request that you will be good enough to get in touch by telephone with the Sunderland Surveyors, with a view to the First Entry Reports on both the hull and machinery being forwarded to this Office with the least possible delay, together with the plan of the midship section (as built), for the purpose of preparing the certificate on the hull.

You should at the same time arrange to expedite the payment of any outstanding fees, in order that compliance may be given to the Owners' request.

I shall also be glad if, with a view to saving time, you can be good enough to obtain the consent of the Ship and Engine builders to the classification certificates being sent to the Owners direct.

The Surveyors,  
NEWCASTLE-ON-TYNE.

I am, Dear Sirs,  
Yours faithfully,

Clerk to the Classification Committee.
