

27th June, 1958.

GENOA.

23234,306,31,64 - As recommended.

RMC. 23367,76,84 - As recommended.

23305 "LUCANIA" - As recommended, except that a notation of MS 2,57, has been assigned and that the record of starboard TS 4,58 has been withheld pending a further examination of the shaft before the end of May, 1959.

I shall be glad if you will ascertain from the Owners and advise this office at an early date, when and at what port they intend to complete the Special Survey, as the year of grace expires at the end of the present month.

"FIDELIO" - I duly received your letter of the 18th instant with enclosure, the contents of which have been noted, and would inform you that the survey of the main boilers has been accepted in this instance. The record of MBS 8,57 is, however, being withheld pending all the furnaces of both boilers being examined and dealt with as necessary before the end of next month. I shall be glad if you will ascertain from the Owners and advise this office of their proposed arrangements to deal with this matter.
